Job Opportunity for Youth Grant Initiative

The *Job Opportunity for Youth* grant initiative was developed in 2012 to address the specific community need of youth employment. This grant initiative enables charitable and not-for-profit organizations to apply for funding to provide summer job opportunities for youth in our community.

The grants aim to support charitable and not-for-profit organizations to complete specific projects that will directly benefit their organization, and to provide youth with employment opportunities by achieving some or all of the following goals:

- Provide opportunities to learn about charitable and not-for-profit organizations
- Develop skills for future employability
- Support an important demographic of our community by providing mentoring and sharing skills, talents, knowledge and professional services
- Link youth to meaningful economic opportunities that will help create stronger and more connected communities
- Provide opportunities to build connections with employers
